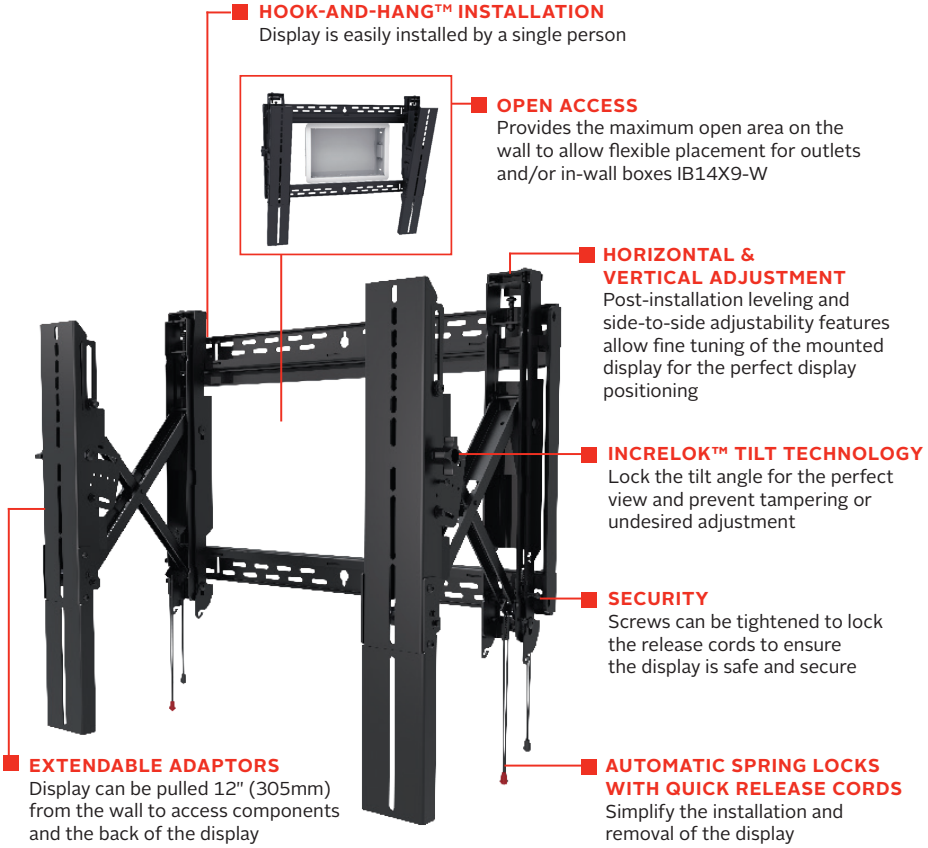
SMARTMOUNT®

Universal Scissor Wall Mount

FOR 39" TO 85"+ DISPLAYS*

Peerless-AV's SmartMount® Universal Scissor Wall Mount is the optimal mounting solution for UC/VC applications and recessed walls as the STS650 allows for convenient access to components stored behind the display. The STS650's extendable adaptors allow the display to be pulled 12" (305 mm) from the wall to easily access the back of the display, and can be locked into place when the installation or maintenance is completed. Installation of the display is a breeze with the Hook-and-Hang™ feature, and the mount's open access design provides the maximum open area on the wall to allow flexible placement for outlets and/or in-wall boxes. Post-installation leveling and side-to-side adjustability features allow for fine tuning of the mounted display for the perfect position in any corporate conference room, digital signage application or hospitality setting.

- 3.82"-12.00" (97-305mm) display extension allows for post-installation servicing and component storage behind display
- Universal mount fits displays with mounting patterns 200 x 100 to 600 x 400mm (600 x 600mm with included bolt-on extenders)
- Adjustable up to 15° of forward tilt and -2° of backward tilt for the optimal viewing angle
- Optional IncreLok™ feature offers fixed tilt angles of -2°, 0°, 5°, 10°, and 15°
- Menu board style wall plate with open frame design (compatible with IB14X9-W In-Wall Box)
- Extendable Adaptors can be tensioned to any depth to ensure display sits flush in recessed applications
- Up to 1/2" (12mm) of post-installation leveling
- Center keyhole for easy leveling and installation
- Optional Accessory: Universal AV Component Mount (ACC-UCM2) allows components to be installed, configured and cabled off-site, and quickly attaches to the mount which reduces on-site installation time



HOOK-AND-HANG™ INSTALLATION
Display is easily installed by a single person

OPEN ACCESS
Provides the maximum open area on the wall to allow flexible placement for outlets and/or in-wall boxes IB14X9-W

HORIZONTAL & VERTICAL ADJUSTMENT
Post-installation leveling and side-to-side adjustability features allow fine tuning of the mounted display for the perfect display positioning

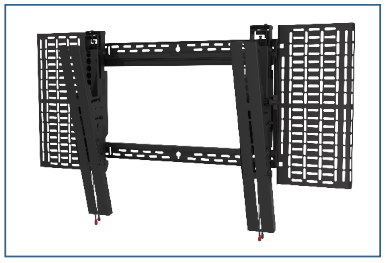
INCRELOK™ TILT TECHNOLOGY
Lock the tilt angle for the perfect view and prevent tampering or undesired adjustment

SECURITY
Screws can be tightened to lock the release cords to ensure the display is safe and secure

EXTENDABLE ADAPTORS
Display can be pulled 12" (305mm) from the wall to access components and the back of the display

AUTOMATIC SPRING LOCKS WITH QUICK RELEASE CORDS
Simplify the installation and removal of the display

Fully adjustable +15/-2° tilt with IncreLok™



Shown with (2) optional ACC-UCM2 Universal AV Component Mounts

Please visit peerless-av.com/en-us/patents for patent information.

*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA® pattern and max weight of the Peerless-AV® product.
