

Low Profile IN BOX® with Metal Box for Flat Surface Retrofit Construction

Recessed, metallic electrical box with non-metallic, extra-duty weatherproof-in-use cover for flat surfaces in existing construction. Accepts most single gang wiring devices and uses standard indoor wall plates or a GFCI cover plate. Non-metallic portion and covers are UV rated plastic for long outdoor life.

FEATURES AND BENEFITS

- IN BOX replaces the installation of an electrical box and bubble cover assembly
- Installs in the wall, so less of it shows outside
- No gaskets required
- Use the retrofit IN Box on plywood, T-111, and other flat surfaces
- Install option: Cover is removable for easier device installation
- White, non-metallic portion and white cover are textured/paintable
- Grounding wire provided
- For use with metal raceway systems
