Region: US

Product: HSM2164RF

Brand: DSC

One-Way Wireless Receiver for PowerSeries Neo

We are pleased to announce the launch of our new product, the HSM2164RF.

This new Corbus module enables the PowerSeries Neo to support the legacy DSC one-way wireless devices operating at 433MHz.

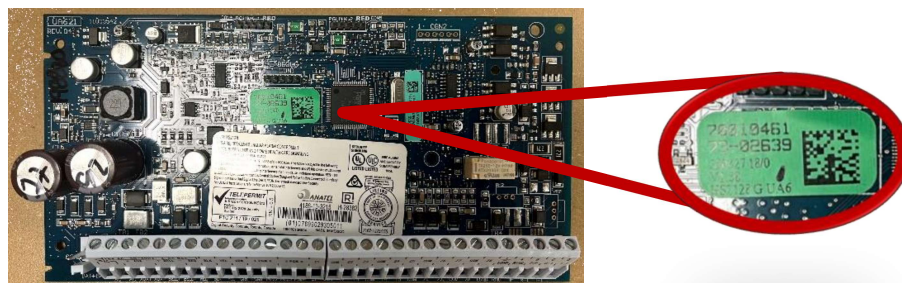

The introduction of this accessory provides a significant advantage for upgrading existing installations where one-way DSC wireless is currently in use. By integrating the PowerSeries Neo panel, you can reuse all your existing wireless devices.

This approach not only helps to keep costs under control but also allows for an upgrade of legacy installations to meet new security standards. We believe this is a great step forward in enhancing your security system's efficiency and reliability.

Compatibility

- HSM2164RF is compatible with PowerSeries Neo panels that have the "G" build of the hardware and running V1.50 firmware or higher.

The "G" hardware build can be identified with the green label present on the board.

- Once a HSM2164RF is installed on a PowerSeries Neo running V1.50 or higher software it adds support for legacy DSC 433MHz one-way devices, of course PowerG devices can also be supported on the same system.
- The following DSC one-way Wireless devices can now be added to PowerSeries Neo using HSM2164RF:

- WLS912L-433 Glassbreak Detector
- WLS914-433 Pet Immune PIR
- WLS922-433 Glassbreak Detector
- WS4926 Smoke Detector
- WS4936 Smoke Detector
- WS4939 4-button Wireless Key
- WS4959 5-button Wireless Key
- WS4969 Wireless Key with Flashlight
- WS4975 Door/Window Contact
- EV-DW4927 Shock Sensor
- EV-DW4955/EV-DW4975 Slim-line Contact
- WS4904P Pet Immune PIR
- EV-DW4917 Recessed Contact
- WS4913 Carbon Monoxide Detector
- WS4916 Smoke Detector
- WS4945 Mini Door/Window Contact
- WS4933 CO Detector
- WS4938 Panic Button
- WS4949 2-button Wireless Key
- WS4965 Tri-zone Door/Window Contact
- WS4985 Flood Detector
- WLS928/WS4928 Hold-up Pull Station
- WS4904 Motion Detector

- Keypads will need to be upgraded to V1.51 to properly work with PowerSeries Neo V1.50 and HSM2164RF

Certifications

- UL, ULC, FCC, IC
