Binary™ USB 2.0 Reversible A-Male to A-Male Cable

We've made the most common USB cable better than ever. With a convenient reversible A end male connector, it'sthey're the perfect match for webcams, Xbox Kinect, Smart Boards and more. Aluminum foil and braided shielding ensures protection that will never compromise the USB 2.0 compliant signal of speeds up to 480Mbps. Add on the incredibly flexible outer jacket, and you've got a cable that gets the job done right.

Reversible A-End

The universal reversible connectors allow for quick installs on just about any job.

Bendier is Better

Our cables are incredibly flexible and allow more freedom with installs.

Strength of Shielded

The aluminum-shielding layer combines with a braided shielding so that signal quality isn't compromised by EMI.
