KEY FEATURES

General Information

- Can be used in all wiring applications as a junction, splice or power supply cabinet.

Design

- Cost effective, low maintenance and compact design.
- Includes a document holder, and allows attachment for a pen and key.
- Continuous piano type hinge.

Construction

- Heavy-duty enclosures are constructed with a powder coated metal to help protect against corrosion.
- Metal thickness meets or exceeds Type 1 requirements.

Installation

- Enclosures mount to the wall enabling units to be protected in their designated location.
- Back design helps accommodate uneven walls or mounting surface.
- Top, side and bottom knockouts are 1/2” and 3/4”.

Options

- Thumb or key lock (option sold separately).
- Backplate (sold separately) may be mounted into cabinet.
- UL, cUL Listed, Type 1 (see approvals).

PRODUCT OVERVIEW

These metal enclosures for electrical and electronic equipment (up to 1000V) provide a line of defense against hazardous parts and provide a degree of protection to enclosed equipment. Constructed for indoor use, enclosures mount to the wall enabling electronics, control panels and more to be secured in their designated location. Multiple size options available to help guard against accidental or intentional vandalism.

Metal enclosures have a durable finish to help protect against corrosion.
