Work Area Products

MAX®, 10G MAX and Keystone Faceplates

Regional Availability – International

Siemon provides durable and stylish modular faceplates with an assortment of mounting choices to accommodate a range of international requirements. Siemon's MAX and 10G MAX single gang faceplates are designed to be used with hybrid, Z-MAX®/UltraMAX™ and TERA® outlets. Siemon Keystone faceplates are designed to be used with keystone Z-MAX/ UltraMAX outlets.

1. Labels
Sheets of designation labels can be ordered for use with printers.

2. Application Flexibility
Complete copper and fiber multimedia support. Various port densities provide design flexibility.

3. Reduce Alien Crosstalk (ANEXT)
Siemon's 10G MAX International faceplates feature discrete port openings to support Cat6, Cat6A 10G applications and are intended for use with Z-MAX and UltraMAX connectivity.

4. Durability
Durable finish masks minor scuffs that may occur during daily usage.

5. Multiple Colour Options
Faceplates available in Black, White, Bright White, Alpine White, Ivory, and Light Ivory.

Installation Flexibility

Hybrid Z-MAX/UltraMAX or TERA outlets can be installed from the front or rear of MAX or 10G MAX faceplates.

Labelling

Most faceplates include pressure-release designation label covers for quick, tool-less removal.

Reduced Mounting Depth

Siemon's angled faceplate adapters provides a secure mounting solution for use in trunking systems, faceplates and floor boxes while reducing depth needs.
