Value & Quality

TECHCHOICE

The TechChoice family is built around the familiar Keystone jack footprint and provides enhancements for faster installs.

TechChoice products deliver exceptional value and performance, backed by customer support that is unparalleled in the marketplace. We offer a wide range of jacks, patch panels, workstation mounting accessories and copper patch cords that complement our custom and standard copper solutions—for a fully integrated system.

Connectivity

Keystone KT2J Unshielded (UTP) Jacks – Standard Solutions

(Rear Loading, Lacing Cap Termination)
KT2J jacks, available in CAT6A, CAT6 and CAT5E, represent the next generation of keystone termination. These jacks utilize an installer friendly lacing cap termination with a free termination tool supplied with every carton of 20 or bulk pack of 25.

28 AWG CAT6 Patch Cables

Reduced diameter is ideal for high density data center applications. The smaller cable surface area allows for increased airflow and a smaller bend radius, which makes it easy to route through cable management panels.
