

Empowering domestic preference applications.

BAA-Compliant Government and Education Solutions

The Buy American Act (BAA) is a law in the United States that encourages the federal government to procure U.S.-made products. The act aims to support domestic manufacturing, American workers and businesses, and ensure that taxpayer money benefits the U.S. economy.

Our BAA offers are also compliant with TAA. Our experts can help you find compliant solutions and provide a free quote for your new or modernization project with product solutions from APC by Schneider Electric.

Smart-UPS™ On-Line

Provides high-density, double-conversion online power protection for servers, voice/data networks, medical labs, and light industrial applications. The included PowerChute™ Network Shutdown management software provides unattended graceful shutdown of network operating system with an integrated network management card for remote management.

The entire Smart-UPS On-Line family provides value to customers with demanding power conditions, including a very wide input voltage window, extremely tight output voltage regulation, frequency regulation, internal bypass, and input power factor correction.
