

NSC6A Patch Cords

Maximize value in current and emerging 10Gbe digital infrastructure with the netSELECT® Category 6A patch cords. Perfect for applications where cost efficiency and data transmission are a priority. They provide a proven Category 6A patching solution and ease of use to support high bandwidth and high density port applications. The netSELECT Category 6A system includes jacks with proven Cobra-Lock™ termination and the Hubbell product quality you trust. The netSELECT 6A solution enhances installation efficiency and ensures a secure connection for network reliability.

- Cost effective solution supporting IEEE 802.3 10 Gigabit Ethernet applications
- Compatible with high density port applications
- Supports high power POE, including the IEEE 802.3bt 4PPoE Standard
- Easy depress latch and slim boot for ease of use
- Flexible cabling for high cable count applications
- Compatible with our extensive line of work station plates & boxes, unloaded patch panels, & delivery systems products

Standards

- ANSI/TIA-568.2-D Category 6A and ISO 11801 Class EA channel requirements
- RoHS compliant
- POE: IEEE 802.3af, 802.3at, 802.3bt Type 3 and Type 4 applications

Features

- Slim, snagless boot
- 26 AWG stranded conductors, unshielded twisted pair cabling
- 50 micro inch gold plating contacts
- T568B wiring
- Flame-retardant PVC-CM rated jacket
- Diameter: 0.23" nominal
