

OPERATING INSTRUCTIONS

BLUETOOTH ID/PASSWORD MODIFICATION

MW-42BT-AM

1. MW-42BT BLUETOOTH CONFIGURATION TOOL OVERVIEW

This software is used for the ID/password modification of MW-42BT.

2. OPERATING ENVIRONMENT

It works with Windows 10 above.

*Windows is a trademark of Microsoft Corporation.

4. OPERATION INSTRUCTIONS

4.1 PREPARATION

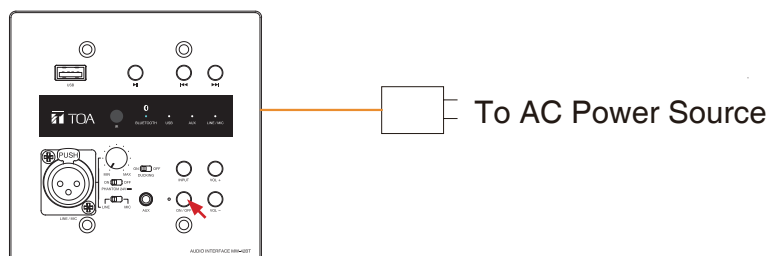

- 1 x MW-42BT
- 1 x Computer with Bluetooth® adapter
- Bluetooth configuration tool

*The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

4.2 OPERATION

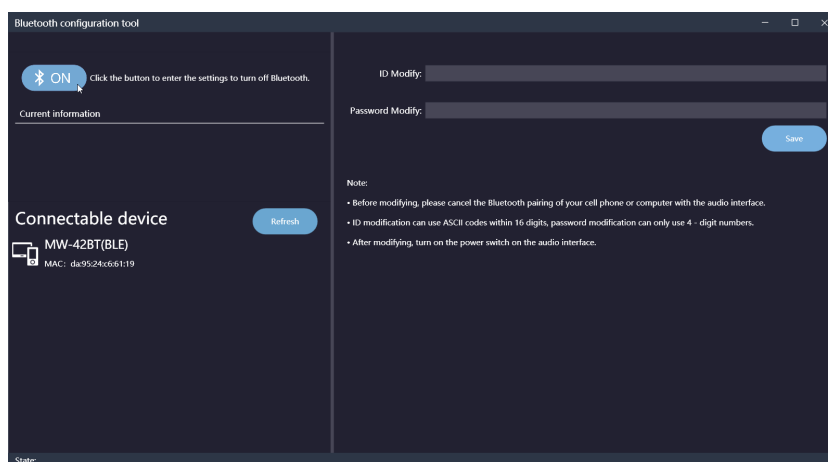

4.2.1. Connect the MW-42BT to the power supply, turn on the power switch, and the Bluetooth LED will be flashing.

Note: If the MW-42BT has been paired with a cell phone or computer, please unpair the Bluetooth first.

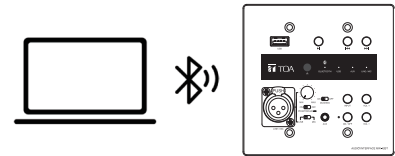

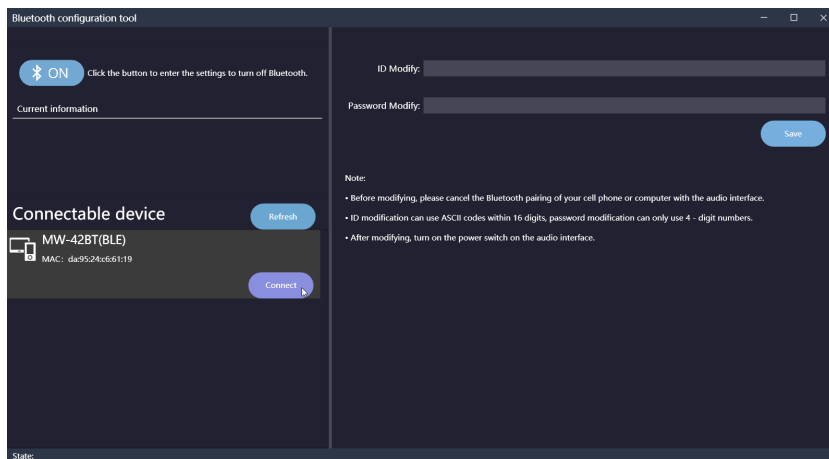

4.2.2. Double-click "Bluetooth configuration tool.exe" to open the setup software.

4.2.3. Turn on the switch on your computer's Bluetooth adapter.

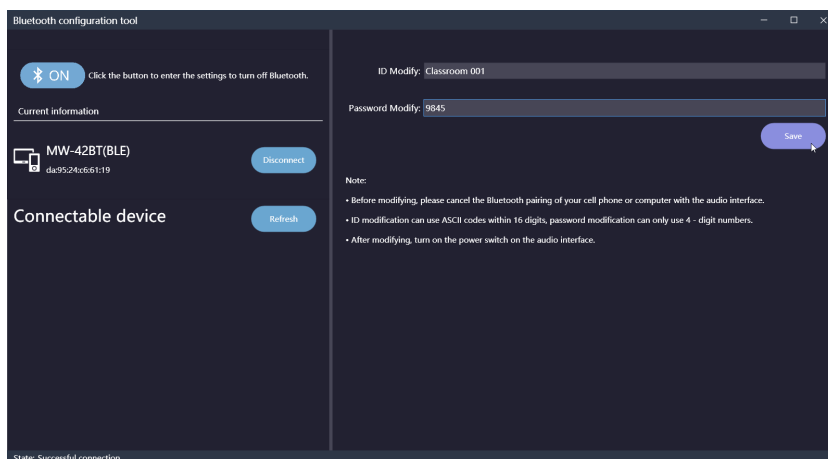

4.2.4. Select the MW-42BT you want to modify, then click Connect, if the connection is successful, the lower left corner of the software will prompt to "Successful connection".

4.2.5. Enter the ID and password you want to modify, such as ID enter "Classroom 001", password enter "9845", and then click Save, after the saving is successful, the computer and MW-42BT are disconnected from Bluetooth, and the MW-42BT is shut down and reset.

After turning on the power switch, you can connect with the new Bluetooth ID and password.

Note: ID modification can use ASCII codes within 16 digits, password modification can only use 4- digit numbers.
