

Aeon CineWhite® A8K Series

Acoustic Transparent Fixed Frame Projection Screen

Product Description

The **Aeon CineWhite® A8K** is an EDGE FREE® fixed frame screen with an ultra-fine acoustically transparent front projection material for high-resolution projectors.

The CineWhite® A8K material allows sound to pass through the multi-layer fabric with minimal attenuation. Its bonded black backing eliminates light loss while reducing light reflection. It is ISF Certified for accurate color reproduction in dark room environments.

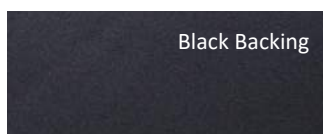

Product Design & Features

- Ultra-fine knitted weave design screen material for sound transparency
- Integrated black backing eliminates back-lighting (reflection)
- Negates moiré effect when projecting
- Excellent sound transparency with minimal attenuation
- Sleek EDGE FREE® Frame design maximizes viewing area
- Includes an Ultra-thin black aluminum bezel trim
- Optional LED kit available – Sold Separately
