

Product Description

Enjoy the outdoors and bring cinema-grade projection anywhere using our **DIY Pro Screen**. It features black masking border with reinforced metal grommets that run all edges, enabling simple do-it-yourself installations. The projection surface allows a clear and sharp presentation without image fidelity loss. The DIY Pro Screen is a professionally engineered yet cost-effective solution that eliminates all the problems encountered when trying to project on regular sheet fabrics.

Product Design & Features

- CineWhite® UHD-B matte white front projection material allows for a clear picture and superior brightness
- WraithVeil® Dual is a 2-directional front/rear screen material that allows for front or back projection
- Black masking borders enhance visual contrast while absorbing projector overshoot
- 4K/8K Ultra HD, and HDR Ready for high resolution projectors
- Sturdy double-stitched black borders are durable for outdoor use
- Rust-resistant metal grommets reinforce the sides to provide an easy hanging solution
- Canvas carrying pouch is included for storage and portability
