

VMAX Tab-Tension 3 Series

Electric Motorized Tensioned Projection Screen

Product Description

The Elite Screens' **VMAX Tab-Tension 3** is an electric/motorized projection screen available in either CineWhite® ISF matte white material or CineGrey high-contrast grey material. Its tab-tension system ensures the screen is evenly stretched on all sides, delivering a perfectly flat viewing surface ideal for ultra-short, short, and standard throw projectors. Its elegant arc-shaped housing allows for flush wall mounted and ceiling installation.

Product Design & Features

- Moisture resistant, durable arc-shaped white enameled housing (**Black housing on CineGrey models**)
- Versatile flush wall/ceiling installation options for any application
- Floating brackets also included for wood stud installation
- Tab-tension design helps maintain a flat, taut projection surface that is ripple-free
- Ships fully assembled ready to plug-and-play

Control System

- Includes handheld Infrared (IR) and Radio Frequency (RF) remote controls, and a wall box controller for manual on-wall operation
- User-friendly programmable vertical drop position
- Wall box controller is detachable for a clean look while maintaining RF & IR functionality
- Built-in selectable channels allow one RF remote programming to control multiple screens and prevent interference
- 12v trigger feature allows the screen's operation to synchronize with the projector's power cycle
