

QSC AUDIO/Q-SYS TAA COMPLIANT PRODUCT

Updated as of June 3 2026 - This list is subject to change and it is the responsibility of the Integrator/Reseller to contact QSC Audio/Q-SYS to determine if there have been any changes. TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. – made or designated country end-products. This act requires that contractors must certify that each end-product meets the applicable requirements. End-products are "those articles, materials and supplies to be acquired for public use." This includes items which have been "substantially transformed" in the United States, or in any TAA designated country.

QSC/Q-SYS' TAA compliant products are approved to be acquired for United States Government use. These products are:

Model	Sales Part	Part Number	Origin	Description
