

Sonos One Shelf

The easy-to-install shelf for Sonos One, One SL and Play:1 securely holds your speaker in place—its space-saving design provides a designated space for your speaker.

- Designed to support up to 8lbs (3.6kg).
- Dimensions (H x W x D): 0.89 x 10.23 x 6.29in.(22.7 x 260 x 160mm)
- Weight: 1lb (0.45kg)

Note: For the full selection of Sonos-compatible stands, wall mounts, and cables, see [Accessories](#) on our website.

What's in the box?

- Top shelf
- Wall bracket
- Bottom cover
- Mounting

Note: Sonos speakers sold separately.

What you'll need

- Pencil
- Phillips-head screwdriver
- Power drill (if needed for install)

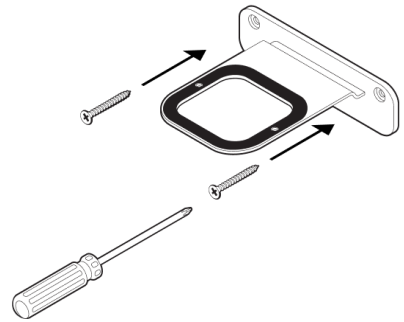

Wall material	Pre-drill	Use wall anchors	Use screws
Wood stud	1/8" / 3 mm bit	No	Yes
Drywall (no stud)	5/16" / 8 mm bit	Yes	Yes

Wall material	Pre-drill	Use wall anchors	Use screws
Hard wallboard or double board	5/16" / 8 mm bit	Yes	Yes
Plaster	5/16" / 8 mm bit	Yes	Yes
Concrete or brick	5/16" / 8 mm bit	Yes	Yes

Set it up

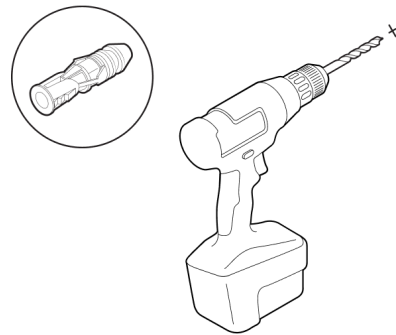

1

Place the wall bracket against the wall and mark the screw holes. (Make sure the black bracket foam ring is face up.)

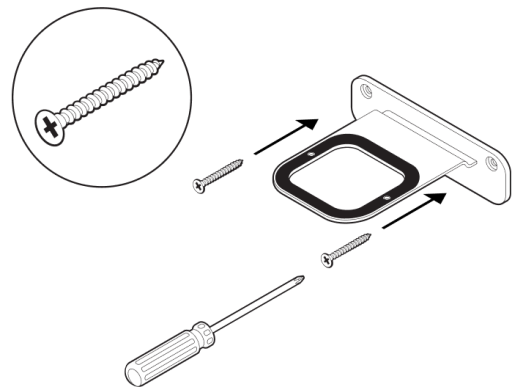

2

If using wall anchors, use a 5/16" drill bit to drill 2 pilot holes and then insert the wall anchors. Refer to the wall mounting information below for guidelines. Otherwise skip this step.

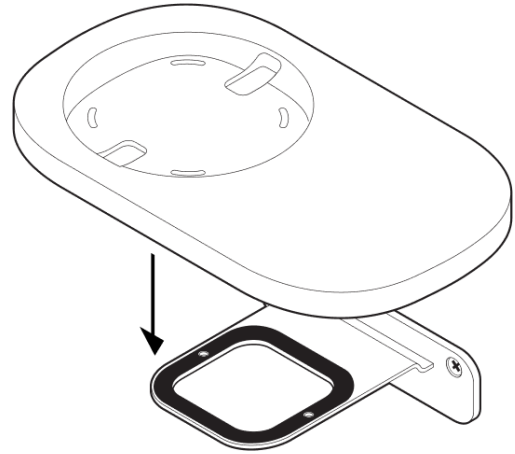

3

Use a Phillips-head screwdriver or a power drill to screw the bracket to the wall.

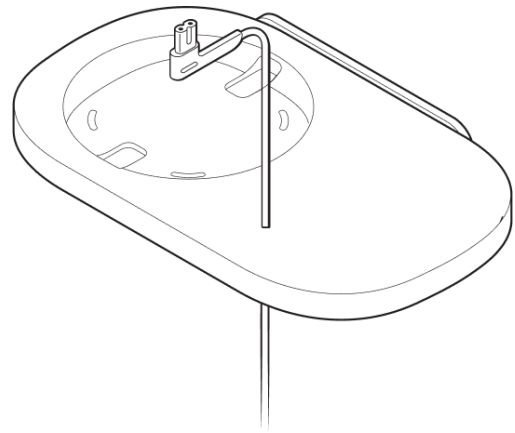

4

Position the Shelf the way you want it (supports left or right speaker placement). Press the Shelf firmly on to the wall bracket until it snaps into place (both front and back).

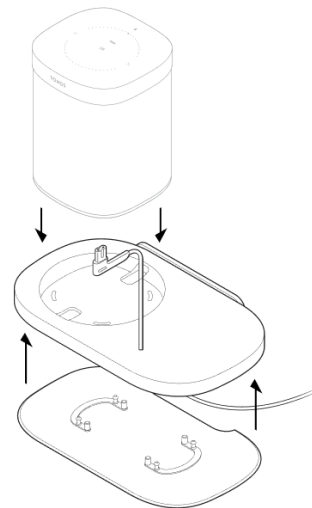

5

Route the speaker's power cord through the Shelf opening. (You'll wrap the cord around the bottom of the Shelf after it's assembled.)

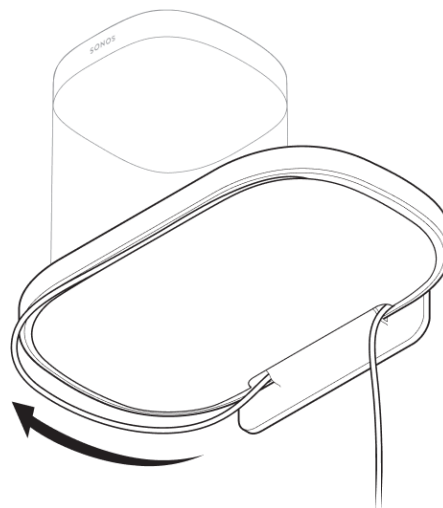

6

Carefully align the pins, then press the bottom cover firmly onto the shelf until it snaps into place. Plug the power cord into the speaker and place it on top of the Shelf.

7

Wrap the excess power cord around the bottom of the Shelf.

8

Your Shelf assembly is complete—time to play some music!
