AVARRO™

Bright. Exceptional imagery. High performance perfected.

Elevate your AV system with our versatile Pro E Series.

Enjoy reliable, vivid picture quality and Android 14 operating system to enhance your display experience.

Sharp 4K Picture Quality
Showcase crisp, clear images and intricate details with UHD 4K resolution.

24/7 Commercial Operation
Great for supporting always-on environments.

4K HDMI @60Hz
The Pro Series 2 is HDR10-compatible, delivering high contrast and 350 nits of brightness.

Content Management Software
Manage content without additional hardware thanks to the built-in content management system that lets you schedule content, manage displays, and create engaging digital signage deployments with an intuitive interface right out of the box.

Media Player
Features three media types: Image, Music and Video.

Commercial-Grade Reliability for Amazing Value
Delivering the same performance and essential features that businesses expect from industry leading displays.

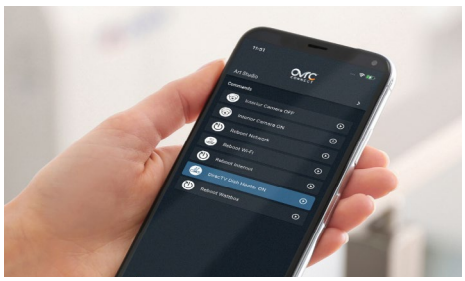

Flexible Connectivity and Simple Media Deployments
With multiple HDMI inputs, IP connectivity, HDMI-CEC control, audio input/output, and wireless networking capabilities, the Pro Series 2 easily integrates into a wide range of commercial environments.

Simple to install, easy to use
Plug-and-play, deploys easily, no IT support required.

Ultra Slim Design
Designed with a corporate or retail environment in mind for a more optimal viewing experience.

OvrC Enabled
Access AVARRO displays remotely with OvrC to complete firmware updates, system reboots, and more. This free, cloud-based platform is designed for professionals like you to remotely monitor and troubleshoot connected devices.

Solutions For a Wide Range of Business Needs

AVARRO Pro E Series 2 displays provide flexible functionality suited for a wide range of retail stores and businesses looking to do more with their display, while not overburdening staff with complicated features. From digital menu boards to advertising or playing live and/ or distributed content, the Pro E Series 2 from AVARRO is the perfect solution for businesses looking for a straightforward and effective way to communicate with their customers.

Industry Standard Certified
ETL certified and FCC compliant to provide a safe and healthy viewing environment meeting standards of electromagnetic wave emission and assuring reliable operation even near other electronic equipment.

HDMI Wake Up
Automatically turn on and off your display upon HDMI port detection. Provides smooth HDMI switching from any source.

Auto Launch
Automatically present content using various sources such as HDMI, DP, Type-C or OPS, HTML CMS Launch or any Android application.

Signal Failover
If the source is disconnected, the display will show your customized banner or search for any other signal from video sources.

Display Control
Control your displays using LAN and RS232 commands.

Pixel Shifting
Avoid image retention when static content is displayed.
