Da-Lite Advantage Series, 65" x 116" with High Contrast Matte White - DL15256L **SKU: DL15256L**

The Advantage® ceiling recessed electric screen series is designed with ceiling trim in place, to conceal the rough opening eliminating the need to complete additional trim work once the screen is installed.
Its two-stage installation option affords the screen case to be installed during the rough-in construction stage, and the screen surface assembly during the finishing stage.
Sliding installation brackets allow mounting flexibility for easy attachment of the screen housing to the structure above the drop ceiling.
Advantage with SightLine™
Da-Lite's new cable drop feature, SightLine, available with the tried-and-true Advantage (up to 184" Diagonal in 16:9 and up to 189" Diagonal in 16:10) electric screen, gives the impression of a floating screen. A suspension system in its single roller design features 3 or 4 thin cables eliminating the need for black drop – the black border above the projection screen. While the market is accustomed to specifying drop distance upon ordering, now vertical placement of the screen can be variable as the cables accommodate a range of drop distances up to 70" (standard) or 10' (option) between the ceiling and the top of the screen – making ordering a snap. What's more, this feature creates usable space above the viewing area to preserve architectural interests and provides the opportunity for camera/speaker placement. Enhanced aesthetics, painless ordering, smooth installation and future proofing for height adjustability – this is the fine line between status quo and jaw drop.
On December 11, 2023 our motors with built-in low voltage control were enhanced to provide a more efficient and user-friendly installation experience. Click here to learn more.

- Standard Low Voltage Control (LVC) and available optional controls allows screen operation flexibility

- optional controls allows screen operation flexibility
- UL Plenum rated case
- White powder-coated case for a clean aesthetic
- Decora-style, three-button wall switch
- Standard black backing retains projected brightness on front projection surfaces
- Seamless surfaces in all models

The Advantage Series website product pages were recently consolidated. Learn more about these user enhancements here. Are you searching for the former naming conventions for reference? See the former and new product names in the table below.

Specifications

Dimensions & Measurements

Screen Diagonal	133 in (337.8 cm)
Screen Height	65 in (165.1 cm)
Shipping Dimensions	134" x 13" x 10" (340.4 x 33 x 25.4 cm)
Shipping Weight	123 lbs (55.8 kg)
Size	65" x 116" or 133" diagonal

Characteristics & Features

Application	Ceiling Recessed
Built-In Control	Standard Low Voltage Control
Closure Door	Slot
Drop Type	SightLine Cable Drop
Federal Ops Country of Origin	US
Motor	Standard 120V (60Hz)
Product Selection	Complete Screen
Projection Type	Front Projection
Screen Format	HDTV (16:9)
Screen Surface Features	Standard Resolution
Screen Type	Electric
Special Features	Large Venue
Surface	High Contrast Matte White (non-tensioned)
TAA Compliant	Yes
UPC	840236909834

Certifications & Warranties

Certifications	TAA
