

The Jonard Tools TPE-34667RED Professional Grade Electrical Tape is a durable red vinyl tape designed to provide reliable insulation and protection in a wide range of electrical applications. Perfect for splices, bundling, cable marking and general wiring projects, this tape combines strength, flexibility, and long-lasting performance.

- Red, professional-grade PVC electrical tape, 3/4” (19 mm) wide, 66 ft (20 m) long, 7-mil (0.18 mm) nominal thickness.
- Rated up to 600 V for primary insulation of splices.
- Flame retardant and heat resistant, with a temperature range of 32 °F–221 °F (0 °C–105 °C) for safe use in demanding environments.
- All-weather durable, maintaining flexibility in cold conditions and resisting sun, moisture, and environmental exposure for long-lasting performance.
- High elongation and tensile strength provides secure, long-lasting wraps.
- Rubber-based adhesive sticks firmly without leaving residue for clean application.
- Tested to ASTM-D1000 and CE standards, UL510 certified, and RoHS compliant for safety and regulatory compliance.
