Product Specifications

3/16" x 2-3/4" Phillips Flat Head Concrete Screw Anchor

Part Number 36P234
Category Number 4560
UPC 781002114413

Concrete Screws are tempered masonry screws designed for long lasting performance and superior holding strength. Due to their unique thread design, they are the ideal fastening solution for light to medium duty applications in concrete, brick, masonry block and wood base materials. They are manufactured with a gimlet point that taps it's own threads while drilling into the base material. Common applications for this fastener include the attachment of electrical boxes, light fixtures, and masonry base materials.

Physical Characteristics

Install Tool	IT1000
Anchor Type	Concrete Screw
Drive Type	Phillips
Head Type	Flat
Point Type	Gimlet
Thread Style	High-Low
Bit Size	#2
Anchor Diameter	3/16"
Anchor Length	2-3/4"
Thread Length	2-3/4"
Material	Carbon Steel
Finish	Blue Xylan
Color	Blue
Cement Type	Various PSI

Packaging Details

Included	Carbide Tipped Drill
Standard Qty	100
Sleeve Qty	500
Master Qty	1500
Price Per	100
Package Length	5.00
Package Width	3.00
Package Height	3.00
Net Weight	0.0145
Package Weight	1.45

Performance Data

Pre-Drill Size	5/32" x 4-1/2"
Applications	Poured Concrete, Prestressed Concrete, Cinder Block, Brick, Mortar
Special Features	Designed for Close To Edge Fastening, Strong Grip, Corrosion Resistance, Case Hardened, Can be Loosened for Adjustment or Removal
Cement Type	Various PSI

Certifications

UNSPSC	31162101
RoHS Compliant	Yes
