Product Specifications

Hydraulic Punch Tool (no dies)

Part Number HPT
UPC 781002820468

The 12-Ton Hydraulic Hole Punch Tool is compact and designed for use with Dottie punch dies to produce clean, consistent holes in steel and stainless steel. Its fully articulating head enhances access and control for panel and enclosure work in tight areas.

Physical Characteristics

Type	Hydraulic Punch Tool
Handle Material	Aluminum Alloy & Medium Carbon Steel

Packaging Details

Standard Qty	1
Master Qty	2
Price Per	1
Package Length	17.01
Package Width	5.51
Package Height	3.62
Package Weight	5.90

Performance Data

Intended Cutting Material	Steel & Stainless Steel
Applications	Hole-Making in Steel & Stainless Steel
Special Features	12-Ton Head, Fully Articulating Head

Certifications

UNSPSC	27121800
RoHS Compliant	No
