Overview

The Sonos Sound System—

- Sonos is the wireless sound system that fills as many rooms as you want (up to 32) with music, movies and TV.
- Free **Sonos app** guides you through setup and provides system control for everyone in the house.
- Easily manage your system from any room.
- Mix and match products to build a home sound system that fits your lifestyle.

Explore our products

Sonos products work together seamlessly. It's easy to add speakers and expand your system as your home changes.

Headphones

- **Sonos Ace**: obsessively crafted and masterfully tuned, these headphones make you feel at one with the sounds that matters most to you.

Portable speakers

- **Move 2**: Move 2 is the premium portable speaker that lets you bring powerful stereo sound from room to room and outdoors.
- **Roam 2**: Lightweight, durable, and powerful, Sonos Roam 2 makes it easy to enjoy Sonos sound everywhere life takes you.

Speakers

- **Era 100**: Featuring next-gen acoustics and new levels of connectivity, Era 100 transforms any room with the finely tuned stereo sound and rich bass your music deserves.
- **Era 300**: With next-level audio that hits from every direction, Era 300 doesn't just surround you, it puts you inside your music.
- **Five**: Engineered for high fidelity, Five elevates your listening experience with vivid stereo separation, clean bass, and spectacularly detailed vocals.

Home theater

- **Arc Ultra**: featuring Sound Motion technology, the Arc Ultra soundbar brings your home entertainment to life with superior clarity, depth, and dimension.
- **Arc** and **Arc SL**: premium smart soundbar for TV, movies, music, gaming, and more. Place on furniture or wall mount.
- **Beam (Gen 2)**: the smart compact soundbar, now with Dolby Atmos. Place on furniture or wall mount.
- **Ray**: the soundbar for music, TV, and more, with great sound for compact spaces. Perfect for small to medium-sized rooms. Place on furniture or wall mount.
- **Sub 4**: unlocks the full power of Sonos sound, delivering powerful bass to immerse you even deeper in every scene and song.
- **Sub (Gen 3)**: add dramatically deeper bass to any Sonos speaker, for home theater and music.
- **Sub Mini**: the compact wireless subwoofer for bold bass.

Components

Convert existing speakers, stereos, and home theater into music streaming systems with an amplifier.

- **Amp**: versatile amplifier for powering all your entertainment.
- **Port**: flexible streaming component for your stereo or receiver.

Accessories

- If your existing WiFi isn't reliable enough for streaming music, you can purchase a Sonos **Boost**.
- Wall mount kits or stands tailored to perfectly fit your Sonos products.
- Turntables to bring vinyl to your Sonos system.
- Cables and more.

Stream Music, TV, and more

Sonos gives you easy access to all the content you love—play the latest music from your favorite artist on Spotify, a local news radio station, and much more.

- **Sonos Radio**: free out of the box access to news, sports, talk, and music from more than 60,000 global broadcast stations. Plus original content, only on Sonos.
- **Sonos Radio HD**: subscribe for ad-free listening, lossless audio, and access to exclusive stations and artist content.
- **Music services**: explore and manage your music services—add your own or try something new.
- **Stored on your computer**: play music stored on your computer or any Network-Attached Storage (NAS) device.
- **Imported playlists**: Sonos is compatible with iTunes playlists, as well as M3U, WPL and PLS playlist files created with third-party software.
- **Other audio devices**: play music from a turntable or other external audio device.

Group speakers in different rooms

Listen in any room or every room—play a movie in the living room, a podcast in the kitchen, or group two or more speakers together so they play the same audio. If you have a home theater set up, you can send the TV sound to other speakers, too.

Control your way

- **The Sonos app**. The free Sonos app is the easiest way to play anything and everything on Sonos. Simply open the app and choose your favorite music.
- **Voice commands**. If you have a voice-enabled Sonos speaker, use your voice to play and control the music.
- **Speaker controls**. If you're near a speaker, use the touch controls to start or stop the music, or adjust the volume.
- **Stream from your favorite services**. Control Sonos from a different app like Spotify, Pandora, or Pocket Casts.
- **Apple AirPlay 2**. Use AirPlay 2 to stream music, movies, podcasts, and more directly from your favorite apps to your Sonos speakers. Listen to Apple Music on your Sonos One. Watch a YouTube or Netflix video and enjoy the sound on Sonos.
