

A man and a woman are standing in front of a stone wall. The woman, on the left, is wearing an orange top and a patterned skirt, and is touching a digital display mounted on the wall. The man, on the right, is wearing a brown jacket and white pants, and is looking at the display. The display shows a 2N logo and a photo of a person. The background is a stone wall with some greenery visible at the top and bottom.

2N

Residential portfolio

Future-proof, smart, integrated

Meet the most demanding project needs and enrich the lives of your residents with 2N's comprehensive property access portfolio

2N.com

1

Main door communication and access

2N IP Verso 2.0

Precisely match the needs of your project every time. Combine up to 20 different modules. Provide residents with full HD video calling and secure entry with access readers that support multiple access credentials

2

Garages and car park

2N IP Force

One of the world's strongest intercoms can easily withstand accidental impact from car mirrors. To restrict vehicle access automatically, pair it with an Axis camera for license plate recognition

3

Answering calls in homes

2N Indoor View

Sleek answering unit with 7" touch screen that enhances any interior. Offer a smart living experience with easy integration to home automation and other advanced features

4

Answering calls remotely

My2N App

Allow residents to answer their door from anywhere! The My2N app offers video calling from intercoms to mobile phones – increasing both convenience and home security

9

5

Secure common areas

2N Access Unit 2.0

Want cohesive design, modern technology, and versatile installation? Secure common areas with this smart access reader with a built-in controller

6

Mobile access

My2N App

Combine free mobile credentials with our revolutionary keyless access. The WaveKey technology ensures access is secure, fast and reliable.

7

Concierge desk

2N IP Phone D7A

No modern project is complete without an IP phone that offers two-way video communication. Add the personal touch to concierge desks as well as advanced features & heightened security

8

Access control for elevators

2N Access Unit 2.0

Don't neglect elevator access! Floor-restricted access is an important part of a complete residential access system that wants to prioritize resident security

9

Remote site management

My2N Management Platform

Handle 4 out of 5 customer requests remotely. Add users, manage access, set up intercom calling, update firmware and troubleshoot: all for free!

Retrofit ready

Don't let legacy cabling hold you back!

Retrofit projects can be challenging – but 2N have several simple ways for you to bring IP technology to any project

Use the existing cables

Connect the IP intercoms and answering units to a converter and then connect the converters to the existing 2 wire cables

Cloud calling via My2N

No network cabling needed - the integrated SIM card slot in the 2N LTE Verso means connecting video calls via the cloud couldn't be simpler
