# SDC COOL TOOLS

1 Voltage & Wire Calculators

sdcsec.com/Calculators

Interactive calculators take the guesswork out of determining the length and size of wires and power required for access & egress control projects.

2 Door Checklist

sdcsec.com/Door-Checklist

The SDC door checklist will help you capture key door details that will figure into proper application and installation of an electronic access control component upgrade. Door handing, type of door and size, as well as type of door header and frame are important to confirm, as well as existing lock, hinge, door closer (if any), ceiling type and height, distance from power supply, and more. SDC's door checklist is available as an interactive form in the COOL TOOLS section of our website or as a downloadable and interactive PDF from our Documents Library.

3 Power Supply Chart

sdcsec.com/CapacityChart

The power supply capacity chart is a quick reference tool to help select the proper SDC Power Supply for connecting to a variety of our locking devices, from EMLocks® to Delayed Egress Locks, HiTowers®, Bolt Locks, Electric Strikes and Exit Devices.

4 Power Guide

sdcsec.com/PowerGuide

Access Control power needs are unique. This guide is designed to help avoid real world access control power problems in new or retrofit applications.

5 Power Test Kit

sdcsecurity.com/powertestkit

Assemble your own Power Test Kit to troubleshoot a malfunctioning locking device. View this video to save loads of time, troubleshooting and phone calls to the manufacturer because you'll know if the device is or isn't the problem.

6 SDC Videos

sdcsecurity.com/videos.htm

SDC has a library of more than 50 installation, tech talk, product review and corporate videos designed to provide critical information, features and tips with clarity that only a visual format can provide.

7 Document Library

sdcsecurity.com/documents.htm

SDC's major publications and brochures like our Catalog, Price List, Condensed Brochure, Door Checklist and more are available for download in the document library. In addition, all Data Sheets, Installation Instructions, 3 Part Specs, Product Benefits, Pricesheets, CAD/Templates and Videos for every product are organized and quickly accessible by Product Category and Product Series – within three clicks!
