

## Complete Solution

LiftMaster access control systems and gate operators, powered by myQ, cover and connect the entire property — including perimeter, interior, and garage — in one comprehensive, cloud-based offering. It's the Complete Solution.

### One Dedicated Contact

One contact for orders, inventory, and service which simplifies transactions and troubleshooting.

### Assured Compatibility

LiftMaster products (access controls, gate operators and accessories) are designed to work together. Expect fewer returns and less troubleshooting.

### Easy, Cost-Effective Install

Access Control products connect seamlessly to the MyQ Cloud via WiFi, Ethernet or Third Party cellular modems. Additionally, LiftMaster Gate Operators connect to the CAPXM and CAPXLV control system via 900 MHz radio. This means simpler, more cost effective installations across components with less wiring and trenching costs when using LiftMaster solutions.

### Simple to Switch

New customers can easily import their properties' catalogued data and credentials. Plus we provide complementary customer success support to assist with data transfers and train all new partners and customers.

## Value for Your Business

**Greater Value**  
High margin, upselling, return customers

**Easier Installation**  
One vendor, easy install, assured compatibility

**Simpler Logistics**  
One shipment and purchase order, less lead time and vendor management
