

HID Aero Access Control

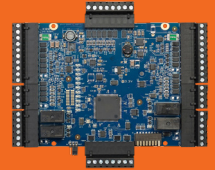

We're excited to announce that the Alarm.com HID Aero Access Control solution for your business customers is now available for convenient pick up at any distributor who carries Alarm.com products.

If you're ready to start installing HID Aero Access Control for your business customers, we invite you to complete one of our new HID Aero Access Control trainings.

Once you complete the training, you'll qualify for a free year of service for a customer account using HID Aero Access Control—valued at over \$1,500!

X1100 Two Door Controller

X100 Two Reader Expander

X1100-2PSE Two Door Controller & Power Kit

X1100-4PSE Four Door Controller & Power Kit

To complete this training, register below and complete these three simple steps:

1. Register and complete either the "Access Control HID Aero Full Introduction" or "Access Control HID Aero Alarm.com Overview" course on your Alarm.com Academy account.
2. Install HID Aero Access Control for a business customer.
3. Fill out [this form](#) to redeem your free year of service.*

REGISTER NOW →

Limit one per security dealer. This promotion will run until 12/31/21.*
This promotion is eligible only for Alarm.com security dealers.

Compatibility

Use industry-standard access control hardware to bring your system online. Smarter Access Control supports the following hardware:

- Any Wiegand reader
- Any card frequency (must match the reader used)
- Any relay-controlled locking hardware
- Any exit device with a relay output
- Most unencrypted card formats, including standard 26 bit formats

If you have any questions about this promotion, please contact commercialsales@alarm.com.

*Promotion Details: For a limited time, Alarm.com Service Provider partners in the U.S. and Canada who successfully complete Alarm.com's Access Control HID Aero training and install Alarm.com's HID Aero Access Control hardware on a customer account are eligible to receive a free year of Alarm.com service on that account.

In order to receive this promotion, please complete the form above once training and install are completed. An Alarm.com Service Provider may receive this promotion only one time regardless of the number of times Service Provider completes the HID Aero training or installs the HID Aero Access Control hardware during the promotion period. Once Service Provider becomes eligible to receive this promotion, any subsequent entries submitted by the Service Provider will be disregarded.

This promotion will run from March 22, 2021 to December 31, 2021. Installation of the eligible devices must be completed during the promotional period in order for Service Provider to be eligible for the free year of service. This promotion is open to Alarm.com Service Providers in the United States and Canada. Alarm.com in its sole discretion may refuse unqualified entries or end this promotion for any Service Provider at any time, including in the event the customer account for which Service Provider qualified for this promotion is cancelled within one year following installation of the devices.
