

ecobee for Pro

Free ecobee Contractor Training Program for Professionals

This training program gives professionals a comprehensive look at ecobee's award-winning smart thermostats, new smart camera, and smart sensors. Through a combination of classroom learning and practical installation training, over 40,000 contractors across North America have learned how easy it is to work with ecobee and why ecobee is the right choice for their business.

Learning by applying

Connecting with more customers and sales will be easier when you personally experience the benefits of ecobee and learn how easy it is to install & use.

Earn a CEDIA CEU

The 2-hour ecobeetraining program is certified with CEDIA. CEDIA members who complete the program will be eligible for 1 CEU.

This training includes:

- Key selling features –what makes ecobee great?
- A deep dive into ecobee's products and services, and how they work together to provide energy-efficient comfort and smarter home monitoring.
- Overview of the ecobeemobile app & web portal.
- Hands-on installation training with real control boards & thermostats for a variety of installation scenarios.
