

# Enhance *and* Advance Your AV Career

Whether you're an AV professional looking to gain a deeper understanding of a particular topic or just starting your career, AV University has the courses to bring you to the next level. With free courses from AV University, you can boost your knowledge of the AV industry, build your resume and help your business flourish.

- All courses are available at no cost
- Work at your own pace 24/7/365
- More than 70 courses – covering Legrand | AV brands, emerging trends, applications and markets

## Continuing Education Credits

AV University supports renewal credits for AVIXA CTS certification. Many AV professionals use their certification to differentiate themselves and their businesses. Getting a CTS certification helps professional development and often leads to career advancement as well. AVU also offers continuing education credits for AIA, BICSI and CEDIA.

## Chart a new course for learning
