

HOME NETWORK SOLUTIONS

BUILT FOR CONNECTED **EXPERIENCES.**

 **legrand**® | AV

Learn how Legrand | AV can help
you connect without interruption.

BUILT FOR CONNECTED EXPERIENCES.

Every home network needs to be able to handle it all—all at once. It needs to support your virtual work meeting upstairs, while the kids are wrapping up remote school in the kitchen and even monitor the temperature in the home to keep the thermostat at your ideal setting.

Today's home network carries a heavy burden – but it's not just Wi-Fi that we depend on. It's all the pieces the network flows through and around. It's optimal coverage in every corner of the home, inside or out. It's peace of mind knowing that your network is secure from outside threats. And a properly set up network can prioritize bandwidth so virtual meetings take precedence over Netflix streaming.

Legrand | AV offers pro-grade solutions with unmatched support that are right at home in every home. From structured cabling, routers and access points to Wi-Fi ready in-wall storage boxes that keep devices hidden neatly out of sight we keep you connected.

IT REALLY IS EPIC

Excellent coverage. Fantastic data rates. Address all your clients' wireless needs with the commercial grade performance you've come to expect from Luxul. Don't let the size fool you—Epic Mesh delivers big benefits.

WHY WE LOVE IT!

- Luxul ProWatch+ makes remote monitoring and network management a breeze.
- 8 SSIDs per node means configuration flexibility for devices that are part of your installation.
- The [Luxul Easy Setup App](#), quickly sets up Epic Mesh for a variety of situations.
- No need for traditional ethernet cables. Just plug into an outlet and you're up and running.
- The best products get the best support (jump ahead to [Designing the Right Network](#) to see how Luxul helps you breathe easy).

WAIT, WHAT IS PROWATCH?

Luxul ProWatch is a cloud management solution allowing you to remotely manage your clients' networks from anywhere and everywhere. Get notifications when a device falls offline, perform firmware updates on select products, and so much more with ProWatch at your fingertips.

WHY WE LOVE IT!

The Right Design

Register your project online and Luxul engineers will provide a custom network design based on your project details. If the design does not perform (wired or wireless) we'll make it right by providing any additional network equipment, at no cost to you.

The Right Equipment

The certified design will provide you with a list of both required and optional equipment. Equipment fails after installation? Hey, it happens. Luxul will provide an advanced replacement of any product to save you, and your client, from any additional headache.

The Right Management

Complete the network design with Luxul ProWatch for remote monitoring and management.

BUILT FOR CONNECTED EXPERIENCES

THE BEST NETWORK SUPPORT

When you have the best components, you can maximize your network. Pair your Luxul network with products to house and protect it.

PRODUCTS WE LOVE

The #1 AV rack because it is both Forward and Lever Lock™ compatible.

Protect your equipment from a surge with superior surge protection on all NEXSYS PDUs.

Wi-Fi ready plastic enclosures now feature specific design enhancements.

CONNECTIVITY AND CABLE MANAGEMENT

On-Q structured wiring solutions provide the backbone to create a reliable network and ensure high quality performance. We offer solutions suitable to exceed your needs in both residential and light commercial applications.

And while we'd love for you to show our connectivity off, often the best AV experiences are felt, not seen. Effortlessly keep cables and wires accessible, organized, and out of sight with cable management products.

THE ESSENTIALS
