Welcome to the helpful home.

There's no place like a Google Nest home.

It's a place where everything works beautifully together to take care of you and the world around you. A place where your doorbell can tell you who's coming and going. Your thermostat helps you save energy. And you can control it all with your voice.

With Google Nest products, creating your helpful home couldn't be easier. Take a look at all the ways our devices can make your home safer, more comfortable, and a little more fun.

Hey Google, give me a little help.

Google Assistant helps you get things done so you can focus on what matters most. As you move throughout your home – or even if you aren't home – you can turn on the lights, listen to music, warm up the living room, preheat the oven, lock the front door, close the blinds, see the outdoor cameras, and so much more.*

Just say “Hey Google” to get started.

Better together

Nest Temperature Sensor

Most homes aren't the same temperature in every room. With the Nest Temperature Sensor, you can let your Nest thermostat know which room should be a certain temperature at a certain time of day. Just place it on a wall or shelf and get the right temperature, right where you want it.

Better together

Saving energy is a beautiful thing.

“Hey Google, turn down the thermostat”

With Nest Hub and Nest Hub Max, you can adjust the temperature on your Nest thermostat from the display or with your voice. Set a personalized routine to turn down the temperature and turn down the lights with a single command. Or say, “Hey Google, set the thermostat to an Eco Temperature,” and Google Assistant can optimize your home’s energy consumption.

With home view on Nest Hub and Nest Hub Max, you can control Nest thermostats and other connected home devices from a single dashboard. Just swipe down on the screen and click on one of the icons to select that device.

HVAC monitoring

Now your Nest thermostat is even more helpful. HVAC monitoring, now included on all Nest thermostats, looks out for your heating and cooling system to help make sure everything's running smoothly.¹

Looks out for many issues and sends helpful alerts.²

HVAC monitoring can notify you if something doesn't seem right – like an issue with your furnace. You can even book a visit with a qualified pro right from the Google Home app.³

Makes maintenance easier.

Get reminders to help you stay on top of seasonal maintenance and keep your system running as it should. You'll know when it's time to replace your air filter based on actual usage, not just a calendar date.

¹List of eligible HVAC systems is available at g.co/nest/hvac-monitoring. ²Alerts can notify you of a potential issue with eligible HVAC systems. They're meant to provide helpful information, not an endorsement, representation, or warranty of any kind about the health of your HVAC system. Alerts aren't intended to replace a diagnosis by a qualified HVAC professional. ³Pro assistance is only available in eligible areas and is provided by Handy, an independent third-party platform that connects individuals to home services, including heating and cooling maintenance services.

Nest Protect

The smoke and CO alarm that thinks, speaks, and alerts your phone.

There's never been a smoke and CO alarm quite like this. Nest Protect looks for fast-burning fires, smoldering fires, and carbon monoxide. It also speaks up when there's a problem and can send a message to your phone in case you're not at home.*

[Learn more about Nest Protect](#)

Better together

Nest Protect smoke and CO alarm

Get alerts on your phone.
Nest Protect can send you a message when there's a problem or if the batteries are running low.*

*Mobile alerts require working internet and Wi-Fi.

Tells you what's happening.
Nest Protect speaks up if there's smoke or CO and tells you what it is, so you know what to do.

Sees the CO you can't.
Carbon monoxide is an invisible, poisonous gas. Nest Protect alerts you when it's there.

Silence with your phone.
Just burned the toast? Silence the false alarm with your phone, not your dish towel.

Better together.

In an emergency, Nest Protect can tell your Nest thermostat to turn off the heat or forced air systems to keep the danger from spreading. And if Nest Protect senses smoke or carbon monoxide, your indoor Nest Cams can record a clip so you can go back and see what happened.*

*Some features, including mobile notifications, remote control, video streaming, and video recording, require working internet and Wi-Fi.

Nest Wifi

Strong connection, every direction.

Nest Wifi blankets your whole home in reliable Wi-Fi coverage.¹ Automatic updates help your network stay safe and sound. One Wifi router with one Wifi point is strong enough to handle up to 200 connected devices, and fast enough to stream multiple 4K videos at a time.² And your Nest Wifi point has a speaker with Google Assistant for extra help around the house. This is Wi-Fi the way it should be.

[Learn more about Nest Wifi](#)

[How many Wifi points do you need?](#)

¹Home size, materials, and layout can affect how Wi-Fi signal travels. Larger homes or homes with thicker walls or long, narrow layouts may need extra Wifi points for full coverage. Strength and speed of signal will depend on your internet provider. ²This is based on only using connected devices at a data rate of 1 Mbps each. Requires sufficient broadband internet connection and connected devices to be located within Wi-Fi coverage area described at g.co/nestwifi/coverage.

Better together

Nest Wifi

Coverage in every corner.

The Nest Wifi router and point work together to blanket your whole home in fast, reliable Wi-Fi and eliminate buffering in every room.¹

Stream with speed.

Intelligently works behind the scenes to make sure your Wi-Fi remains fast.² Walk from room to room on a video call with an uninterrupted signal.

Security that's a step ahead.

It automatically updates itself to get new features and help your network stay safe.

Hands-free help around the house.

Each Nest Wifi point has Google Assistant, so you can play music, manage your Wi-Fi network, find answers, control your connected devices, and more, using just your voice or the Google Home app.³

¹Home size, materials and layout can affect how Wi-Fi signal travels. Larger homes or homes with thicker walls or long, narrow layouts may need extra Wifi points for full coverage. Strength and speed of signal will depend on your internet provider.

²Strength and speed of signal will depend on your internet provider. ³Controlling certain devices and features in your home requires a compatible smart device. The Wifi point is optimized for selected content services only.

Better together

Working together, beautifully.

Create a home that takes care of you. Here are just a few of the Google Nest products that work better together to make your home smarter, safer, more comfortable, and more entertaining.

Know who's knocking.

With Nest Hub Max and Nest Hello, it's easy to see who's at the front door. You can even speak directly to visitors from your display.

Check in on home, inside and out.

See what's happening on your Nest cameras anytime with the live video stream on your Nest Hub. Just say, "Hey Google, show me the kids' room."

Adjust the temperature with your voice.

With Nest Mini and a Nest thermostat, you can change the temperature without lifting a finger. Just say, "Hey Google, make it warmer."

Get a little more help at home

With devices that have Google Assistant, like Nest Hub Max, Nest Hub, and Nest Mini, you can set personalized routines to get more done with a single command. Just say, "Hey Google, I'm leaving" to lock the doors, turn down the temperature, and turn off the lights.*

Get all-day help from Google Assistant.

Simplify your morning.

Set a personalized routine to get out the door faster. Say “Hey Google, good morning” to turn on the lights, turn up the thermostat, check the weather, and get your schedule and commute.¹

Movie night done right.

Get comfy on the couch. With Nest Hub and Nest Mini, you can ask Google to dim the lights, turn up the thermostat, find a movie on Netflix, and even start the popcorn maker – all hands-free.

Relax with an evening routine.

Just say “Hey Google, good night” to turn down the temperature, turn off the lights, lock the doors, and set the alarm, while you stay cozy in bed.²
