

New 5-year warranty.
Even more peace of mind.

At Axis, we trust in our production quality and we confidently stand behind our products. That's why we can promise you first-class quality, reliability, and support all the way. And, with our excellent 5-year warranty you get more years of trouble-free ownership at no cost.

Key features include:

- > Trouble-free ownership
- > Better control of overall costs
- > High-quality RMA support
- > Added quality and assurance

Protect your investment

Our 5-year warranty provides the coverage you need to protect your investment. Valid for most of our product portfolio, it covers defects in design, workmanship, and material under normal use and applies to all purchases shipped from Axis to the original purchaser on or after April 1, 2020.

It's free with no action required from you

What we promise is exactly what you get. So, there's no administration, no emails, no registration required, no hidden costs, and no surprises hidden in the fine print.

Enjoy peace of mind

Our 5-year warranty gives you even more peace of mind so you can focus on what really matters. We confidently stand behind our products and services. And, when you buy from Axis, we want you to be confident too. That's why we're making a guarantee to our customers - a promise that our products won't let you down. And a reminder that you can always rely on Axis for first-class quality, reliability, and support.

And there's more...

Easily track and monitor your warranties. AXIS Device Manager simplifies warranty verification and makes it easy to keep track of your device warranties. This powerful, on-premise tool gives an overview of all Axis devices on your network. And, it notifies you when the warranty for a product is about to expire so you can always be sure you're covered.

High-quality RMA support

For defective products within warranty, we offer flexible RMA (Return merchandise authorization) support for a higher degree of guaranteed quality. And, because we're so confident in our quality, if there is an issue with the product under the warranty period, you can get it repaired or replaced at no cost.
