EMERGENCY SOLUTIONS

IP INTERCOM SOLUTIONS
FOR EMERGENCY RESPONSE

In critical situations, every second matters. The IX | IXG Series provides instant, reliable emergency communication between those in need of assistance and security personnel. Our solutions deliver everyday security and emergency support, whether in parking garages, campuses, or public spaces.

EMPOWER SAFETY WITH AIPHONE'S EMERGENCY COMMUNICATION

OPEN STANDARDS

SIP CALLING
Place or transfer calls to security operations centers or emergency services with SIP.

INTEGRATION
Integrate third-party IP cameras and video management systems with ONVIF™.

INTUITIVE & DURABLE

ADA COMPLIANT
Easily identifiable and accessible with bright LED lighting, red call button, and prominent braille signage.

WEATHER & VANDAL RESISTANT
Withstands harsh weather conditions and high traffic areas with its durable stainless-steel design.

INSTALLATION & MONITORING MADE EASY

FLEXIBLE INSTALLATION OPTIONS
Delivers reliable power with hard-wired or solar powered set-ups for any application and environment.

DEVICE CHECK
Verify status of emergency station camera, speakers, call button, relay inputs, and outputs to ensure consistent performance.

SEAMLESS INTEGRATION WITH LEADING SYSTEMS

Genetec™　　**◆ LENEL:S2**　　**◆ milestone**

⊚ ALERTUS®　　**tyco | Software House**

Aiphone's emergency solutions easily integrate with industry leaders like Genetec, Lenel S2, Milestone, Tyco Software House, Alertus, and more. These integrations ensure efficient management of intercoms, video surveillance, access control, and alarm systems, enhancing overall security.

Our intercoms are SIP and ONVIF compliant, allowing seamless interoperability with leading providers of IP cameras, video management systems, and access controls. This open architecture empowers you to build a customized security ecosystem that evolves alongside your needs.

CREATE A COMPREHENSIVE SECURITY ECOSYSTEM

Secure your premises with the IX | IXG Series IP Video Intercom System.

One solution for security communication, emergency response and access control.
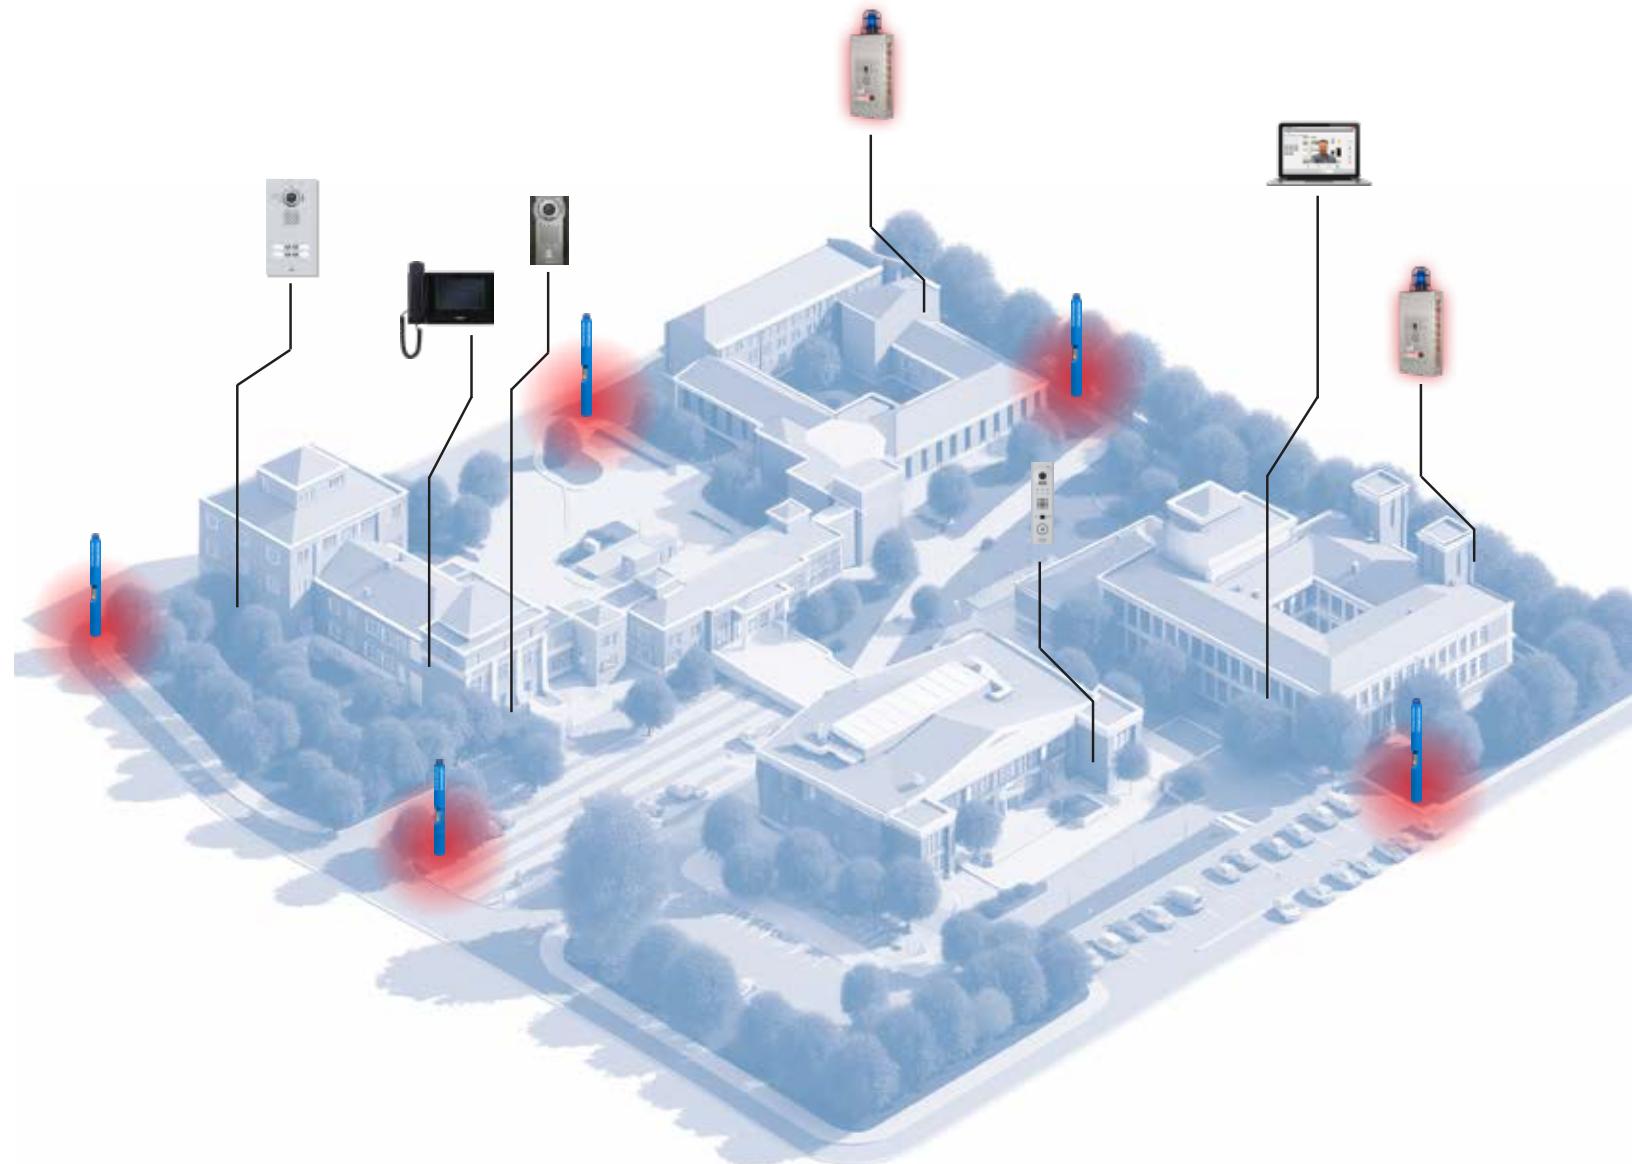

EMERGENCY INTERCOMS

IX-DVF-2RA

- HD Camera
- ADA compliant raised lettering and Braille signage
- Buttons for standard & emergency calls
- PoE pass through
- 2 contact outputs; 6 trigger inputs
- IK08 / IP65
- 11-11/16" H x 7" W
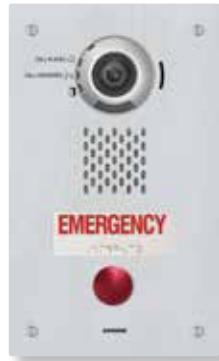

IX-DVF-RA

- HD Camera
- ADA compliant raised lettering and Braille signage
- Single call button for standard & emergency calls
- PoE pass through
- 2 contact outputs; 6 trigger inputs
- IK08 / IP65
- 11-11/16" H x 7" W
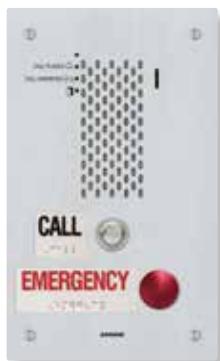

IX-SSA-2RA

- ADA compliant raised lettering and Braille signage
- Buttons for standard & emergency calls
- PoE pass through
- 2 contact outputs; 6 trigger inputs
- IK08 / IP65
- 11-11/16" H x 7" W
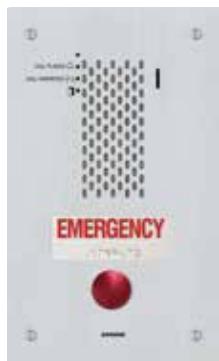

IX-SSA-RA

- ADA compliant raised lettering and Braille signage
- Single call button for standard & emergency calls
- PoE pass through
- 2 contact outputs; 6 trigger inputs
- IK08 / IP65
- 11-11/16" H x 7" W

French and Spanish versions available.

IX-MV7-HB
IX-MV7-HW

Touchscreen answering stations with handset

- 7" touchscreen
- 8 customizable speed dial buttons
- 2 contact outputs, 4 trigger inputs
- Audio and video recording
- Wall or desk mounted

IX-MV7-B
IX-MV7-W

Touchscreen answering stations

- 7" touchscreen
- 8 customizable speed dial buttons
- 2 contact outputs, 4 trigger inputs
- Audio and video recording
- Wall or desk mounted

IXG MOBILE APP

- Video calling and answering
- Door release & relay control
- Intuitive user interface

IX-SOFT
Answering Station Software

- Complete answering station features
- 50 highly customizable speed dials
- Record custom message pages
- Interactive map
- Line Supervision and Device Check

IX-RS-B
IX-RS-W

IX-MV7-HW-JP

EMERGENCY & ASSISTANCE TOWERS & WALL BOXES

WB-CE
WB-CA

- 12-Gauge stainless steel
- ADA Compliant 4" depth
- Each box includes a UL Listed electrical box for installing an AC outlet, and a bracket to install a power supply internally
- 27" H x 10-13/16" W x 4" D

WB-HE
WB-HA

- 12-Gauge stainless steel
- ADA Compliant 4" depth
- Each box includes a UL Listed electrical box for installing an AC outlet, and a bracket to install a power supply internally
- 27" H x 10-13/16" W x 4" D
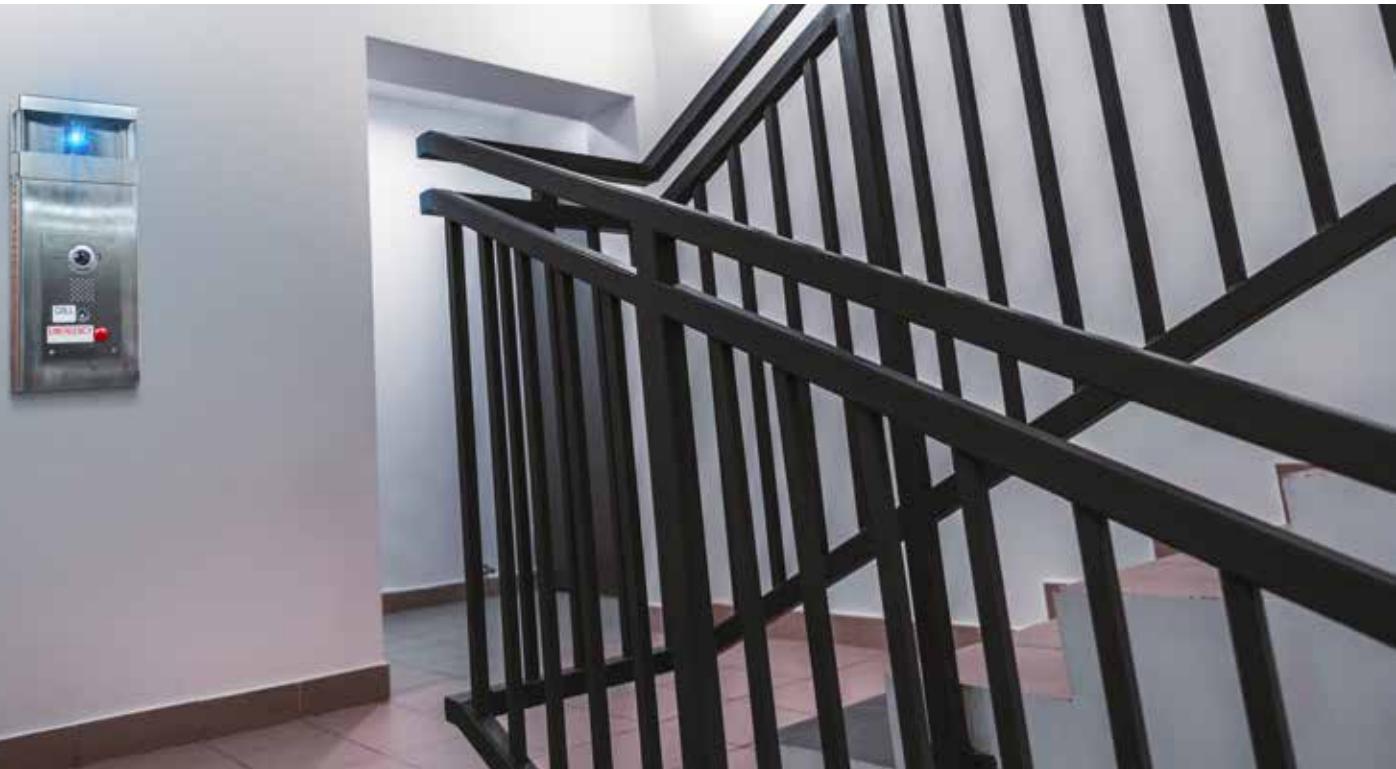

TW-SA   TW-TA
TW-SE   TW-TE

- UL-514-A listed electrical box included at the base
- ADA compliant intercom mounting height
- Beacon/Strobe is always lit; flashes during emergency call-in
- LED for station illumination in station over-hang
- 73" H x 8" W x 8" D

TW-TA-ARM
TW-TE-ARM

- Camera arm with universal pipe threading
- UL-514-A listed electrical box included at the base
- ADA compliant intercom mounting height
- Strobe is always lit; flashes during emergency call-in
- LED for station illumination in station over-hang
- 174" H x 8" W x 15-3/4" D

TWS-Z4

Sets also available for Zones 1 and 2

- Aluminum tower with 5052 aircraft grade aluminum electrical enclosure
- Solar panel and batteries for power
- Ubiquiti wireless point to point for network connectivity
- 26-1/4" H x 58-1/3" W x 1-3/8" D

ACCESSORIES

TW-MKL
L-Bolt Mounting Kit

- Designed to securely mount Aiphone towers into a concrete base
- Includes mounting template to transfer onto plywood for easy installation
- Sold separately for pre-installation convenience

TW-SPL
Door Station Adaptor Plate for Towers

- Adapts standard sized IX sub stations to tower
- For use with non-emergency station when strobe activation is not needed

MB-RF1
Retrofit Mounting Box

- An interface box for mounting Aiphone's IX emergency stations onto an existing Code Blue® or Talk-A-Phone® tower/wall box

PS-POE
PoE Splitter

The PS-POE is a PoE splitter that provides a 24V DC output to power the strobe light in Aiphone's wall boxes and towers.

- Powers strobe without use of a separate power supply
- Compact design is discrete and easy to install
- Easily secured to mounting studs on back of IX Series 2 stations or 1-gang box

IXW-MAA
Multi-Purpose Adaptor

- PoE
- Ten Form C relay outputs
- 24V AC/DC 500mA relay contact rating
- Mountable to a 170mm DIN rail or directly to a wall
