

HOME THEATER

Connect. Stream. Play.

legrand® | AV

Bring the Cinematic Experience Home

The feeling of luxury in a home theater begins with the elements you can't see. Having the right pieces in the background ensures that the viewing experience stays front and center. Make your space the go-to spot for movie premieres (red carpet and celebrity cameos not included).

Legrand | AV provides the solid foundation to support the key features to create the ultimate viewing experience. Start with speaker mounts to create the perfect sonic surround. Keep the show running with power and thermal management tucked away. And be showtime ready with a screen that fits the size and brightness of your room.

Let Legrand | AV solutions give you a ticket to the best seat in the house.

PERFECT FOR INTEGRATING HOME THEATER SYSTEMS IN:

- Multipurpose Media Rooms
- Custom Home Cinemas
- Everyday Entertainment & Living Spaces

AMAZING AV EXPERIENCES
