

CONNECTING

Multi-Dwelling Units

Behind AV experiences—the everyday and the amazing—you'll find Legrand | AV. Our industry-leading brands work together to bring entertainment, comfort, and control to your multi-family and mixed-use buildings. Engineered with simplicity in mind, our products bring tenants what they desire most- a solution that blends seamlessly with the décor for an AV experience they can feel, not see.

- Proven, practical AV solutions preferred by installers, electrical contractors and developers across the country
- Products engineered to be reliable and simplify installation, reducing time on-site
- The best user experience – improve comfort, convenience, and safety for tenants
- Products engineered to support the latest technologies and evolving needs
- Industry leading product warranties and support

Pairing modern technologies with a legacy of proven quality, Legrand | AV offers an extensive selection of products and devices to make life better for tenants of multi-dwelling units.

AT HOME IN YOUR Multi-Dwelling Unit

New connections are happening everyday meaning more technologies are working together to simplify our lives.

Keeping your tenants connected to the technology they rely on requires a dependable AV infrastructure. Explore how Legrand | AV can help you design a standardized solution for your MDU living spaces.

CENTRALIZED AV SOLUTIONS

ON-Q plastic enclosures for new construction or media boxes for retrofit applications provide a Wi-Fi transparent infrastructure to easily organize, protect & support wired and wireless systems, while keeping them hidden neatly out of sight.

AV CONNECTIVITY SOLUTIONS

From AV cables and keystone inserts to network modules and preconfigured plates & straps, our comprehensive solutions ensure peak performance for tenants today and technology of the future.

NETWORKING SOLUTIONS

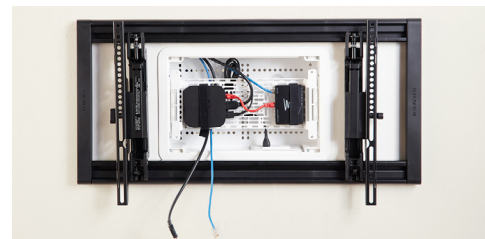

Our simple, reliable networking essentials—structured cabling, routers, and access points— keep your tenants connected to each other and the technology you rely on.

TV MOUNTING SOLUTIONS

Sanus TV Mounts and cable management solutions deliver the ultimate viewing experience while protecting the safety of your tenants. Better yet, they reduce your truck rolls to repair damaged dry wall.

Shared Spaces of Multi-Dwelling Units

By meeting the needs of current tenants as well as anticipating the needs of those in the future, we can help you make the most of your space. Designed by experts who've done the work and know what works, Legrand | AV products go in right and keep on going right.

The brands of Legrand | AV work together to ensure you're getting the most out of every space – bringing entertainment, comfort, and control everywhere you need it, even outdoors.
