

## CUSTOM SERIES

### Skeleton Build - Fully Customizable

This install-friendly skeleton rack can be fully dressed and outfitted for any job. It comes in a variety of sizes and depths with additional accessories like smoked glass doors, side panels, cooling, and wire management.

#### Z-Lock Rails

Tough Z-Lock self-squaring rack rails give the rack a much sturdier stance and enable a faster, simpler install at any size. No more fumbling with multiple pillars!

#### Flat-Pack Shipping

We've made this rack easy to haul around and assemble anywhere by shipping it flat-pack, so it takes up less room in a truck or at the job site.

#### Build Your Own Solution

A Custom Series rack is a blank slate that you can customize any way you want. Outfit your rack to the exact specifications of any job.

#### Rack Package

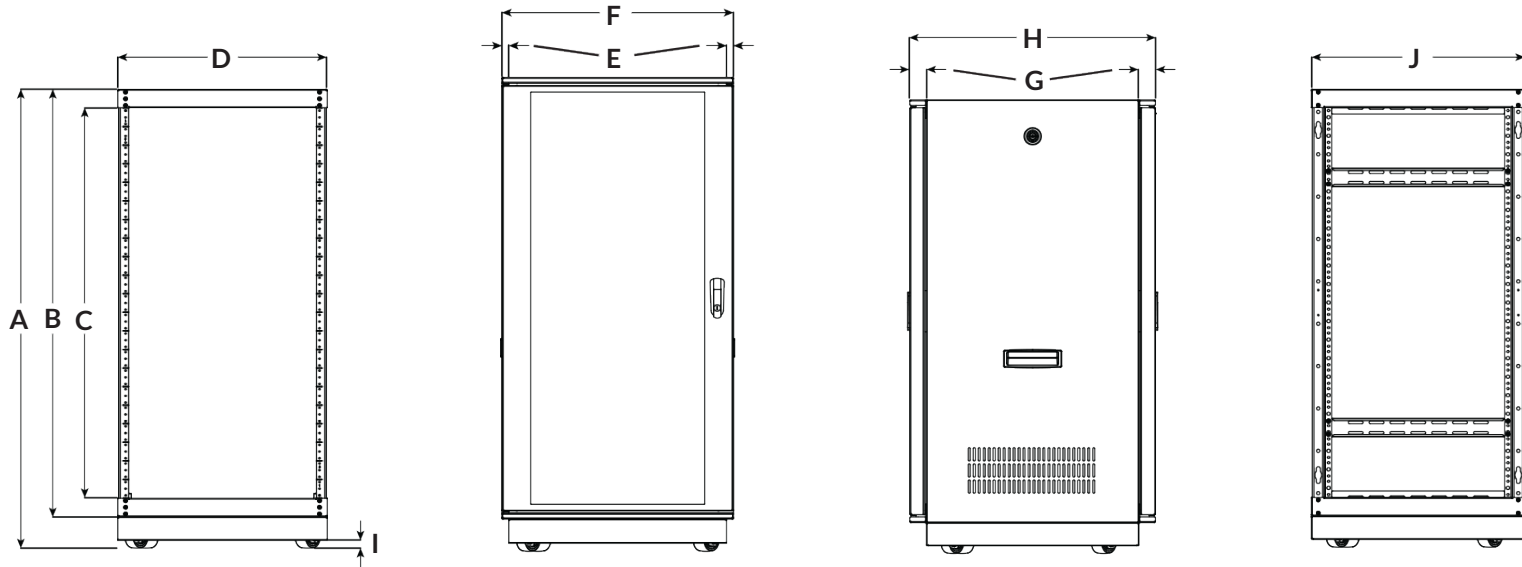

If you don't want to customize your own rack solution, you can purchase a Custom Series rack package that includes vents, shelves, lacebars, and power accessories.
