

Residential Home Theater System

Use this form to specify your residential home theater system requirements. Once completed, email it to adisys1@adiglobal.com. Canadian customers should email sysican@adiglobal.com.

Business Name:	_____	Contact Name:	_____
Account Number:	_____	Email:	_____
Phone Number:	_____	Job Name or Reference:	_____

Front Left & Right Speakers

☐ In-Wall ☐ Wall Mount ☐ Bookshelf ☐ Ceiling Angled ☐ Tower ☐ Other

1. Does the job require: ☐ 5.1 ☐ 5.2 ☐ 7.1 ☐ 7.2 ☐ 5.1.2 ☐ 7.1.2 ☐ 7.2.2 ☐ 7.1.4 ☐ 7.2.4

Mounted equal distance from the center, approximately 45° apart, about ear level.

Center Speaker

☐ In-Wall ☐ Wall Mount ☐ Bookshelf ☐ Ceiling Angled

Mounted right above or below the TV screen, as close to the same height of the Left & Right speakers as possible.

Residential Home Theater System

Side Surround Sound Speakers

In-Wall _____ Wall Mount _____ Bookshelf _____ Ceiling Angled _____ Other _____

Rear Surround Sound Speakers

In-Wall _____ Wall Mount _____ Bookshelf _____ Ceiling Angled _____ Other _____

1. Select the type of Speakers needed and quantity: ☐ Dolby Atmos/DTS :X ☐ 2 Speakers ☐ 4 Speakers

Mounted 2'-3' above ear level on the side or rear walls, ceiling mounted and just behind the listening area.
Surround speakers should be matched in quality to the front speakers for future Dolby Digital requirements.

Sub-Woofer, (please indicate quantity)

Stand alone powered sub _____ Passive in-wall sub _____

Two powered sub-woofers are recommended for optimum results. The units should be placed near an AC outlet.
A passive in-wall sub-woofer can be used if all speakers are flush mounted; this will require a separate amplifier.
