TURING

AI-NATIVE CLOUD VMS & AI AGENTS

Cloud Based Access from Any Where on Any Device

Enhance your Safety and Security Operations with Turing AI, Award Winning Cloud Video Security System

Smart Alerts in Real-time

Smart video alerts allow you to be more proactive with your on-premise security system. Quickly & easily create AI based alerts within Turing Vision and receive notifications via app, text or email on critical areas, people or vehicles of interest, license plates and more.

Find Events in 3 Clicks

Smart video search enables you to search by Face Search, Person Attribute, and Person History. Utilizing these search functionalities enables you to rapidly and accurately search for vital events and streamline your security operations.

Share Clips Instantly

Quick video sharing features takes away the frustration of collaborating with witness accounts and sending video to those that need it. Share AI event clips or saved video on the cloud to members of your organization, police and others via text and email.

FLEXIBLE, SIMPLE & ROBUST Cloud Video Security Solutions

- AI-Powered All-in-One Cloud Video Security Platform
- Flexible License Options Starting from Free Basic-Level VMS with No License Cost
- Various Hardware Choices from NVR-based Systems & Direct-to-Cloud Cameras to 4G & Solar Outdoor Security Solutions
- Integrated with 3rd-party Cameras, Access Controls, Sensors, IP Speakers, and etc.
- NDAA & TAA Compliant Solutions

Hardware Offerings

ONVIF | Compatible with most existing VMS and 3rd-party cameras

Smart Series

NDAA Compliant IP Cameras; NVR Series

- NVR-based Solutions
- 2-12 Megapixel Cameras
- Record Locally with Cloud Access
- 3rd-party ONVIF Compliant
- 24/7 Continuous Cloud Storage Optional
- Up to 10 Years Warranty Eligible

Edge+ Cloud Camera

Direct to Cloud; No NVR; 3-Click Installation

- NVR-less Solutions
- 5 Megapixel Cameras
- Record Locally with Cloud Access
- 1-Year Premium AI Included
- 24/7 Continuous Cloud Storage Optional
- Up to 10 Years Warranty Eligible

4G Remote Security Solutions

Outdoor Security; No Traditional Internet

- SiteShield - Power Required
- SolarShield - Solar Powered
- Verizon, AT&T, T-Mobile and FirstNet Compatible
- 3-Year Premium AI Included
- Remote Cloud Management
- Up to 10 Years Warranty Eligible

Turing Vision Agentic AI Platform - Licensing Options

BASIC Turing Basic

AI-Native Cloud VMS (for SMB Only)

- AI-Native Operational Copilot L1 (Incoming)
  - AI-Native System Health Monitoring
  - Conversational Control Interface
- Built-in AI-native Cloud VMS (Turing Cameras)
- Free Cloud VMS with Turing Cameras
- Camera Edge Analytics & Alerts
- Live View, Playback and Download
- 1GB Cloud Case Management
- Up to 5-Minute Remote Live View & Playback

Turing Essential

AI-Native Cloud VMS for SMB and Enterprise

- AI-Native Operational Copilot L2 (Incoming)
  - AI-Native System Health Monitoring, AI-Generated Reports
  - Conversational Control Interface
- Includes Guardian AI Basic Features
- Support Turing & Compatible 3rd-Party Cameras
- People & Vehicle Event Search with Snapshots
- 7 Days Cloud Storage for Event Snapshots
- Proactive Device Health Alert
- 5GB Cloud Case Management
- Capable of Supporting Enterprise VMS Features such as Active Directory, SSO, Audit Log, IP Authorized List, and User Groups

Most Popular

Turing Core AI

AI-Native Cloud VMS with Advanced AI for SMB & Enterprise

- AI-Native Operational Copilot L3 (Incoming)
  - AI-Native System Health Monitoring
  - Conversational Control Interface
  - AI-Generated Reports and Alert Descriptions (Usage-Limited)
- Includes Guardian AI Basic and Essential Features
- Intelligent Search Based on People or Vehicle Attributes
- AI Event Alert Notifications via App, Email & SMS
- 30 Days Cloud Storage of 5-second Event Clips
- Instant Site or Camera Live Stream Sharing
- 30GB Cloud Case Management
- 3rd-party Integrations (Access Control, IP Speaker, and Sensor)
- Up to 10 Years Warranty with Active License
- ACAI (Axis to Cloud with AI) for Axis Cameras

Powered by Generative AI and LLMs

Turing AI Agent

LLM-Powered AI Agent for Cross-Camera Intelligence & Vertical Integration

General Agent (AI Decision & Automation)

- Includes Turing Core AI Features (With AI-Native Operational Copilot L3)
- Descriptive AI Alert
- LLM-Powered AI Event Search (Single-Turn, Multi-Turn & Structured Timeline Search)
- AI-Generated Cross-Camera Incident Summary Within Defined Timeframes

Vertical Agent - Safe City (Safecity Autonomous Operations)

- Includes All General Agent Features
- Criminal Database Integration and Real-time Alerts for Vehicles on Hotlists
- Premium Vehicle Recognition of Attributes, License Plate (Exact/Partial), and Plate State for Precise Identification
